

I love my satellite radio, and have had it for two years. I dont have to listen to the garbage that is on local radio, nor do I have to listen to dozens of commercials between traffic and weather reports. Xm provides accurate and up to the minute traffice reports in the DC (As well as other major metropolitan areas in the US)

I respectfully ask you to reject NAB'S petition 04-160. If pepole want to hear traffic and weather on their local radio station, they are welcome to listen to it. Me, I am happy to pay my \$9.99 a month for the quality programming that xm radio offers.
